**Ergonomic design, practicality and sturdiness**, the WR-MS31-12 model is built in anti-shock and anti-UV ABS. WR-MS31-12 maintains an absolute aesthetic and structural **quality** over time. The peculiarity of this model is that the air intake takes place in the upper part and not from the bottom, where otherwise it would suck up dust and dirt.

#### STRUCTURE

Conforming to CE standards, all **electrical parts are fully protected** with double insulation in class II.

#### OPERATION

A powerful flow of warm air is **automatically activated** when the hands come closer, thanks to the infrared device.

#### PRACTICAL

The drying time is about **20 seconds**.
