Technical Sheet

ELECTRIC WATER GRILLS

MODEL : **WR-GCVS-49**

Description:

Electric Water Char Grill for great performance, durability and low energy consumption. Water drawer under the cooking zone to replace the lost humidity of grilling goods. That gives unique taste, exceptional flavors and juicy food. Also, it helps to collect the grease during the grilling. Each grilling surface has its own energy regulator. Easy maintenance and cleaning. They have removable parts and lift system of cooking zones for easy cleaning. All parts are made of stainless steel. Optional can be used with cast iron cooking surface or fry top.

Benefits:

- **Energy Saving**
- **Fast cooking**
- **Reduce Flame** – Smoke thanks to water
- **Water Power** for juicy and tasty grilling
- **Easy Clean** - Removable Parts
- **Multi Flexibility** from Grill to Fry Top
- **Optional Parts** such as Grill surfaces – Griddle
