Technical Sheet

WATER Gas Char Grill

Model: WR-GV64-41

Description:

Gas Water Char Grill entirely made of Stainless Steel. Strong burners for fast cooking and economic grilling, the preheat time is less than 5 minutes. The water drawer at the bottom creates the required humidity for a tasteful and juicy result, reduces the flame and the smoke compares to lava stone. Also, it helps to collect the grease during the grilling. Removable parts for easy cleaning and maintenance. Flexible and easy to change the cooking surface from grill to griddle/smooth plate. Each grilling surface has its own ignition button, switch to regulate the power, pilot, safety thermocouple.

Benefits:

- **Energy Saving** (speed temperature cooking surface)
- **Fast cooking** thanks of S/S reflector
- **Reduce Flame** – Smoke thanks to water
- **Water Power** for juicy and tasty grilling
- **Easy Clean** - Removable Parts
- **Safety Parts** Pilot - Ignition –Switch - Thermocouple
- **Multi Flexibility** from Grill to Fry Top
- **Optional Parts** such as Grill surfaces – Fry Top
